

# ***Control Valves***

Globe, Butterfly, Segmented Ball & Eccentric Plug Valves  
Desuperheater & Steam Conditioning Valves

## Steam Conditioning Valves

**Available Sizes:** ½" to 36"

**Rating:** #150 to 4500

**Spray Method:** Small Jets of spray through sleeve at the outlet where the steam is highly turbulent for ultimate mixing

**Special Feature:** No special trim/expertise needed as MASCOT Steam Conditioning Valves use standard MASCOT Globe control valve components. Water is sprayed at the outlet hence protecting the valve belly from pitting or thermal stresses

**Turn-Down Ratio:** 60:1
