

Double Block and Bleed Plug Valves

L&T Valves manufactures a comprehensive range of Double Block & Bleed (DBB) Plug Valves in sizes up to 42" (1050 mm), and in ASME classes from 150 to 600. The valves are offered in a combination of materials and actuation options to suit customer requirements.

The highly reliable valve has successfully completed over 10,000 cycles at its rated pressure.

Range

ASME Class	2	3	4	6	8	10	12	14	16	18	20	24	30	36	42
	50	80	100	150	200	250	300	350	400	450	500	600	750	900	1050

300	•	•	•	•	•	•	•	•	•	•	•	•			
600	•	•	•	•	•	•	•	•	•						

Double Block & Bleed Plug Valve provides online-verifiable bubble tight sealing and is a safe and reliable replacement to the conventional two-valve system. In this valve, high integrity positive shut-off is obtained mechanically, independent of line pressure, without sealants/ lubricants.

Globally, the valve has emerged as the industry standard for movement and storage of petroleum products in refineries, petrochemical plants pipelines, tank farms and terminals.
