

Kerotest Meter Sets

Pre-Fabricated Rotary and Turbine

Product Brief

Commercial and industrial users of rotary and turbine meter sets can put away their pipe cutting, threading and beveling equipment. Kerotest delivers high-quality meter sets, constructed of the highest quality materials in clean, controlled environments, and assembled by people who follow the highest quality standards in the industry. All Kerotest meter sets are built to customer specifications featuring our complete line of proven, maintenance-free Weldball® valves, Gate and Needle valves, and t-strainers.

Features/Benefits

- **Perfect fits, tight joints**, API 1104 welds and 100% factory testing.
- **Extensive inventory of components** means one-stop ordering and quick turnaround.
- **TQM quality procedures** followed by experienced staff.
- **Dramatically reduce** assembly, installation, testing time and costs.
- **Coatings applied** before shipping. Not on the job site.
- **Eliminates the time wasted** by installers sorting through parts and accessories.
- **No leaks, no costly rework**. Pressure-tested at factory.
