Accuracy of information
We take care to ensure that product information in this
catalogue is reasonably accurate and up-to-date. However,
our products are continually developed and updated
so to ensure accurate and up-to-date information please
refer to the product catalogue issue list on our web site or
contact a member of our safe term.

When selecting a product, the applicable operating system design must be considered to ensure safe use. The product function, material compatibility, adequate ratings, correct installation, operation and maintenance are the

All Blodg products are manufactured to a notal stringent. OA programme to ensure that every product will give optimum performance and reliability. We are bird party certified to BCN ISC 900 1000. Functional test certificate, letter of conformity and copies of original mill certificates, providing to call transcribility are available on request, to BSN 10004 3.1 where available. We reserve the right to make changes to the specifications and design etc., without prior notice.
